## Praise for Robbie Schaefer's SONGS FOR KIDS LIKE US:

**"We LOVE the CD . . . perfect for XMKids!"**

**—Melinda \*Absolutely Mindy\* Hohmann**

**"Overall, *Songs For Kids Like Us* is a nicely thought-out and well-executed debut that makes me hope that Schaefer hasn't exhausted his immaturity just yet. Recommended."**

**—Stefan Shepherd**  
Zooglobber

**" . . . here is an artist who finds no need to 'dumb down' music for the small people and who can bridge both accessibility and age-appropriate content with solid, well-written, thoughtfully-conceived songs built on real instruments, "normal" singing voices and backed by an enthusiastic choir of kids. Largely based on folk, Robbie Schaefer's style is both fun and silly but at its heart, is driven by quality and integrity."**

**—Tamara Turner**  
CD Baby

**"The folk-pop of Robbie Schaefer has a sweet, old-fashioned quality; his lyrics reveal a mischievous side. On this CD, tunes about a garbage-eating fish and backward-talking cowboys coexist well with standards ("There's a Hole in the Bucket") and covers ("Down on the Corner")."**
